A huge fitness centre, Waterfall Gym, located at the top floor of Olympian City, Hong Kong recently underwent a renovation to its changing room with shower zone, sauna and steam room. Our USA LED partner, LUMINUS, and our Engineer Manager recommended to use CRI 90, 3000lm with warm color for our two IP waterproof downlight. In order to fulfill the customer's intention to keep the cut hole on the ceiling unchanged, we customize the size of the fittings to help client to save time and lower the cost. The overall effect of the new lighting application is a classy, but warm and relaxing ambience for users who just finish up the tough exercise, relaxation zone as value-added services certainly make a difference to user experience and brand equity.
